MADE OF HOCKEY

GOALIE CUSTOMIZER

17
EVERY GOALIE IS UNIQUE IN HOW THEY PLAY AND HOW THEY WANT THEIR EQUIPMENT TO FEEL AND PERFORM. THE CCM PREMIER AND EXTREME FLEX III CUSTOM PROGRAM IS DESIGNED TO ENSURE YOU ARE PROPERLY GEARED UP EACH TIME YOU STEP ONTO THE ICE. THIS CUSTOMIZER HELPS YOU SEARCH THROUGH A VAST ARRAY OF OPTIONS TO CUSTOMIZE YOUR GEAR FOR THE RIGHT FIT, FLEX, STRAP SET-UP AND LEG CHANNEL TO HELP IMPROVE YOUR GAME!

VISIT WWW.CCMHOCKEY.COM TO SEE OUR PRO GOALIE ENDORSEES EXPLAIN THEIR SPECS AND WHY THEY CHOOSE CCM GOALIE EQUIPMENT.
EXTREME FLEX III PADS

Re-engineered with our pro goalie feedback, the Extreme Flex III is now the lightest goal pad since the inception of the Extreme Flex pads. They provide explosive power pushes and game changing stability.

SPEED SKIN TECHNOLOGY
Quick gliding and explosive power pushes.

OWD CORE SYSTEM
Optimized Weight Distribution provides great speed in the crease.

QK5 STRAPPING SYSTEM
Exceptional 5-Hole closure.
Two injection molded inner core designs are offered to provide flex options from below the knee up to the thigh to maximize your five-hole coverage based on how wide or narrow your butterfly is.

**CORE OPTIONS**

**SINGLE BREAK CORE**
The single break core is designed to be a softer pad with one internal break below the knee for flexibility and mobility.

**DOUBLE BREAK CORE**
The double break core is designed with 2 internal breaks above and below the knee to facilitate 5 hole closure.

Flex options optimize internal and external flex points that can provide maximum coverage based on the width of your butterfly and desired flexibility above the knee.

**FLEX OPTIONS**

Knee cradle options are based on the type of knee protector you wear and how much room is needed to transition from the center of the goal pad into the knee raiser to create a solid seal to the ice.

**KNEE CRADLE OPTIONS**
**EXTREME FLEX III PADS**

**KNEE STRAP OPTIONS**

The best leg strap option matches the flexibility of the goal pad from the knee up. A double break core works well with straps above the knee. A stiffer single break core works well with leg straps at or below the knee.
The leg channel is a personal preference based on whether the goalie wants a loose or tight fit. A tight fit leg channel works best with a shallow ultra soft EPE core. If a loose fit leg channel is desired it is best to select a shallow soft EPE core.

PREMIER PADS

The goal pad that revolutionized blocking a shot between the posts with the first injection molded foam core technology is now the lightest Premier since inception. Designed to maximize coverage and play big the new exceptionally thin profile saves weight and allows a deeper fit. More weight reduction focused in the leg channel and redesigned Pro leg strap set-up to optimize leg rotation when going butterfly and the reverse VH. CCM Premier engineered to improve the center of mass to reduce weight at the key areas to maximize performance.

THINNER PROFILE

Redesigned to reduce weight and improve the center of mass with higher density foam to maintain stiffness and remain square to the shooter.

DEEPER KNEE STANCE

Enhanced five-hole closure in the butterfly position and reverse VH stance.

PRO STRAP SYSTEM

Optimize your leg rotation with a new single knee and single calf strap system with high quality Pro leather construction.
The No Break Core is designed to be a stiffer goal pad to provide solid seal to the ice.

The Single Break Core is designed to be a stiffer pad with one internal break below the knee for flexibility and mobility.

*Offered in precurved & straight.

The Double Break Core is designed with 2 internal breaks above and below the knee to facilitate 5 hole closure.

Flex options optimize internal and external flex points that can provide maximum coverage based on the width of your butterfly and desired flexibility above the knee.

Re-engineered injection molded inner core design with thinner profile to reduce weight where it matters to maximize performance. The three molded core designs are offered to provide flex options from below the knee up to the thigh to maximize your five-hole coverage based on how wide or narrow your butterfly is.

- Straight Single Break Core No Break Outer
- Straight No Break Core No Break Outer
KNEE STRAP OPTIONS

The best knee strap option will allow proper rotation of the knee in the knee cradle. The size of knee protector that the goalie is wearing will determine whether the knee strap should be at the knee or below the knee for increased range of motion.
Leg channel options provide goalies with the ability to customize their fit. A tight fit is designed to provide a secure feel of the pad centered on the leg. Goalies with less flexibility prefer a loose fit and open leg channel, which provide more room for the knee and calf to position closer to the inside edge.

The shaft has been improved to be lighter, but also a lot more consistent. This ensures that goalies can rely on the same great performance and feel each time they step on the ice.

Our junior sticks have been redesigned to help younger goalies control and pass the puck better. The flex profiles have been improved and the blades are longer and the curves are bigger.

The new Extreme Flex III was developed by working closely with our Pro goalies. It has already allowed us to switch even more NHL goalies to our Extreme Flex III stick.
The document contains information about CCM Pro goalie sticks. Here are the details:

**CCM PRO GOALIE STICKS**

**CCM PRO** [NEW]

**SPECIFICATIONS**

**BLADE**
- Full Graphite Blade

**OPTIONS**

**SHAFT**
- Aspen Core with Fiberglass and Graphite Laminates
  - Lightweight and stiff
- Plywood Shaft
  - Traditional feel

**PADDLE**
- Foam with Fiberglass Laminate
  - Regular flex
- Foam with Carbon Laminate
  - Stiff flex

**SHOULDER**
- Regular
- Steep

**BLADE SHAPE**
- Square
- Round
- Extra Round

**SHOULDER SHAPE**
- Regular
- Steep

**COLOR OPTIONS**

- Decal color
- Base color (Paint)
CCM has completely redesigned its composite goalie line. The new Premier Plus was developed using the best out of player sticks while keeping the needs of goalies at top of mind. From the shoulder shapes to the structure and composition of the stick, everything has been optimized to bring to market the lightest and best feeling composite goalie stick.

**PREMIER PLUS STICK**

**GRIP**
A new StikTak Grip has been designed specifically for goalies and has been strategically placed to provide comfort and great control.

**STIFF BLADE**
Premier Plus features the same stiff blade structure as our Tacks sticks allowing goalies to deflect pucks exactly where they want to.

**VIBRATION DAMPENING**
The combination of the Exoflite Weave with the brand new ZeroFlux Technology diminishes the vibrations which provides great feel for the puck at all times.
**CCM PREMIER PLUS**

**SPECS.**

**PADDLE**
- EXOFIBE WEAVE WITH ZEROFLUX TECHNOLOGY
  - Diminishes vibrations to provide incredible feel of the puck.

**HANDLE**
- NEW RAISED GRIP
  - Designed to offer great control, especially when playing the puck.

**BLADE**
- EXTREMELY STIFF BLADE
  - For great accuracy and control of deflections.

**CONSTRUCTION**
- EXTREMELY LIGHT COMPOSITE STRUCTURE
  - Based on the way we build player sticks, to provide great feel and durability.

**OPTION**

**SHOULDER SHAPE**
- REGULAR
- STEEP

**COLOR OPTIONS**

- A: DECAL COLOR
  - YELLOW
  - ROYAL BLUE
  - FOREST GREEN
  - PHOENIX RED
  - GOLD
- B: BASE COLOR (PAINT)
  - BLACK
  - RED
  - ORANGE
  - SILVER
  - NAVY
  - MAROON
  - SPORTS GOLD
  - LA PURPLE
  - TEAL
  - WHITE
