CUSTOMIZER**

CCM

MADE OF HOCKEY

PREMIER / EXTREME FLEX II

EVERY GOALIE IS UNIQUE IN HOW THEY PLAY AND HOW THEY WANT THEIR EQUIPMENT TO FEEL AND PERFORM. THE CCM PREMIER AND EXTREME FLEX II CUSTOM PROGRAM IS DESIGNED TO ENSURE YOU ARE PROPERLY GEARED UP EACH TIME YOU STEP ONTO THE ICE. THIS CUSTOMIZER HELPS YOU SEARCH THROUGH A VAST ARRAY OF OPTIONS TO CUSTOMIZE YOUR GEAR FOR THE RIGHT FIT, FLEX, STRAP SET-UP AND LEG CHANNEL MADE FOR YOU AND YOUR STYLE TO IMPROVE YOUR GAME.

PREMIER PADS

PREMIER PADS

The goal pad that revolutionized blocking a shot between the posts with the first injection molded foam core technology is now the lightest Premier since inception. Designed to maximize coverage and play big the new exceptionally thin profile saves weight and allows a deeper fit. More weight reduction focused in the leg channel and redesigned Pro leg strap set-up to optimize leg rotation when going butterfly and the reverse VH. CCM Premier engineered to improve the center of mass to reduce weight at the key areas to maximize performance.

THINNER PROFILE

Redesigned to reduce weight and improve the center of mass with higher density foam to maintain stiffness and remain square to the shooter.

DEEPER KNEE STANCE

Enhanced five-hole closure in the butterfly position and reverse VH stance.

PRO STRAP SYSTEM

Optimize your leg rotation with a new single knee and single calf strap system with high quality Pro leather construction.

Re-engineered injection molded inner core design with thinner profile to reduce weight where it matters to maximize performance. The three molded core designs are offered to provide flex options from below the knee up to the thigh to maximize your five-hole coverage based on how wide or narrow your butterfly.

CORE OPTIONS

NO BREAK CORE

THE NO BREAK GOAL PAD IS DESIGNED TO BE A STIFFER GOAL PAD TO PROVIDE SOLID SEAL TO THE ICE.

SINGLE BREAK CORE

THE SINGLE BREAK CORE IS DESIGNED TO BE A STIFFER PAD WITH ONE INTERNAL BREAK BELOW THE KNEE FOR FLEXIBILITY AND MOBILITY.

*OFFERED IN PRECURVED & STRAIGHT.

DOUBLE BREAK CORE

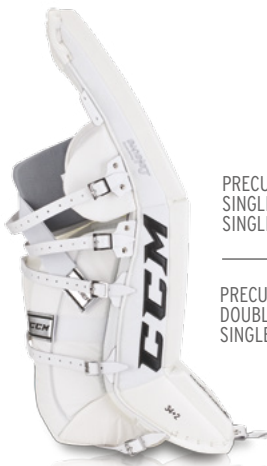

THE DOUBLE BREAK CORE IS DESIGNED WITH 2 INTERNAL BREAKS ABOVE AND BELOW THE KNEE TO FACILITATE 5 HOLE CLOSURE.

Flex options optimize internal and external flex points that can provide maximum coverage based on the width of your butterfly and desired flexibility above the knee.

PREMIER PADS

KNEE STRAP OPTIONS

The best knee strap option will allow proper rotation of the knee in the knee cradle. The size of knee protector the goalie is wearing will determine whether the knee strap should be at the knee or below the knee for increased range of motion.

Leg channel options provide goalies the ability to customize the fit. The tight fit is designed to provide the secure feel of the pad centered on the leg. Goalies with less flexibility prefer the loose fit and open leg channel which provide more room for the knee and calf to position closer to the inside edge.

EXTREME FLEX II PADS

EXTREME POWER PUSH

The Extreme Flex II Goal pads are designed and tested to close the five hole quicker. The new lighter design offers the single knee strap to maximize rotation in the leg channel. The softer boot foam core provides increased torsional flex for the deeper power push to explode across the crease.

POWER PUSH

Re-engineered boot core design with torsional flex for maximum power push.

LIGHTWEIGHT DESIGN

Single knee strap set-up reduces weight and provides optimum knee rotation.

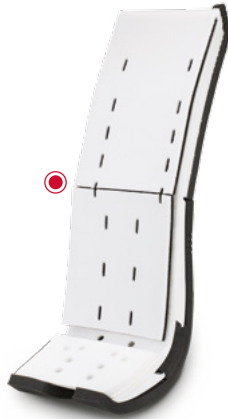

QUICKNESS

Re-engineered and tested to close the five-hole quicker.

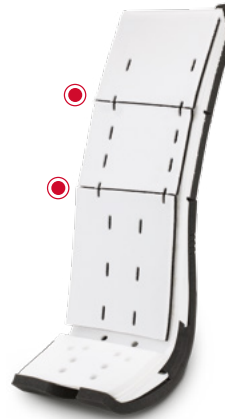

Two injection molded inner core designs are offered to provide flex options from below the knee up to the thigh to maximize your five-hole coverage based on how wide or narrow your butterfly.

CORE OPTIONS

SINGLE BREAK CORE

THE SINGLE BREAK CORE IS DESIGNED TO BE A SOFTER PAD WITH ONE INTERNAL BREAK BELOW THE KNEE FOR FLEXIBILITY AND MOBILITY.

DOUBLE BREAK CORE

THE DOUBLE BREAK CORE IS DESIGNED WITH 2 INTERNAL BREAKS ABOVE AND BELOW THE KNEE TO FACILITATE 5 HOLE CLOSURE.

Flex options optimize internal and external flex points that can provide maximum coverage based on the width of your butterfly and desired flexibility above the knee.

KNEE STRAP OPTIONS

The best leg strap option matches the flexibility of the goal pad from the knee up. A double break core works well with straps above the knee. A stiffer single break core works well with leg straps at or below the knee.

EXTREME FLEX II PADS

The leg channel is a personal preference of whether the goalie wants a loose or tight fit. A tight fit leg channel works best with a shallow ultra soft epe core. If a loose fit leg channel is desired it is best to select a shallow soft epe core.
